TECHNICAL SKILLS

Languages & Frameworks: Java, JavaScript, Python, React, Node.js, Express.js, HTML5, CSS3, Bootstrap

Core Coursework: Data Structures and Algorithms (DSA), Operating Systems (OS), DBMS, OOPs, Web Development

Databases & Tools: MongoDB, MySQL, Git, GitHub, Netlify, Vercel, VS Code

EXPERIENCE

MERN Stack Intern

Jan. 2025 – Apr. 2025

SPARK IT Developers (Assoc. with RacksonsIT Developers Pvt. Ltd.)

- Developed full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Built responsive user interfaces, scalable backend services, and optimized application performance.
- Contributed across the SDLC through development, testing, debugging, and deployment activities.

EDUCATION

K.L.E. College of Engineering & Technology

Bachelor of Engineering in Computer Science and Engineering

2025 – 2028

K.L.E Society's C.B Kore Polytechnic

Diploma in Computer Science and Engineering (CGPA: 8.34)

2022 – 2025

L.E.S English Medium High School

Secondary Education (Percentage: 82.56%)

Class of 2022

PROJECTS

Fast Food Website | *HTML5, CSS3, JavaScript* | [Live](#) | [GitHub](#)

- Developed a fully responsive fast-food website with 6+ interactive sections using HTML5, CSS3, and JavaScript.
- Implemented responsive navigation, animations, image galleries, and interactive menu layouts for an engaging interface.
- Applied mobile-first design, reusable code structures, and cross-browser compatibility to improve usability and performance.
- Improved UI consistency and maintainability by following modern front-end development practices.

Coffee Website | *HTML5, CSS3, JavaScript, Responsive Design* | [Live](#) | [GitHub](#)

- Built a responsive coffee shop website with 5+ interactive sections focused on product presentation and user engagement.
- Created interactive UI elements with smooth scrolling, hover effects, and responsive layouts.
- Optimized assets and layouts for consistent cross-device and cross-browser user experience.

KLECET College Website | *HTML5, CSS3, JavaScript, Responsive Design* | [Live](#) | [GitHub](#)

- Developed a responsive college website for K.L.E. College of Engineering & Technology with structured institutional content.
- Implemented organized navigation, academic information, college sections, and responsive layouts for desktop and mobile users.
- Used clean front-end structure and reusable styling to create a consistent and accessible website experience.

CERTIFICATIONS & COURSEWORK

Career Essentials in Generative AI – Issued by Microsoft and LinkedIn (October 2024)

Alpha: DSA with Java – Comprehensive Data Structures coursework issued by Apna College

Cybersecurity Analyst Job Simulation – Practical simulation focused on Identity and Access Management via Forge
